

Clean a Can Service allows customers to have their garbage and recycling cans cleaned each month. A.O.K. uses “Green Products” that are eco-friendly, biodegradable and non-toxic. For a very low cost of per month, we will come to your residence or place of business, clean and deodorize your cans.

Up to two cans will be cleaned monthly at the specified monthly rate. Additional charges will apply per additional can. All cans must be accessible during the week scheduled for cleaning.
